GYNECOMASTIA BY MASTECTOMY
(Male Breast Reduction)

Gynecomastia is the condition of enlarged or overdeveloped breasts that are disproportionate to a man’s body. Plastic surgery to improve gynecomastia is technically called reduction mammoplasty and reduces the breast size, flattening and enhancing chest contours. The best candidates for this procedure are those who are mature enough to understand and have realistic expectations about the results.

I authorize and direct _______________________, M.D., with associates or assistants of his or her choice, to perform the following procedure of on _________________________________.

(patient name)

I further authorize the physician(s) and assistants to do any other procedure that in their judgment may be necessary or advisable should unforeseen circumstances arise during the procedure.

Patient’s Initials

_____ The details of the procedure have been explained to me in terms I understand.

_____ Alternative methods and their benefits and disadvantages have been explained to me.

_____ I understand and accept possible risks and complications which include, but are not limited to:

- asymmetry
- bleeding
- change in nipple and skin sensation
- delayed healing
- different size than expected
- discoloration/swelling
- discomfort (pain/sensitivity)
- failure to improve symptoms
- infection
- nipple retraction/poor contour
- restricted activity
- skin, nipple, flap loss
- unsatisfactory results
- wound separation

______ I understand and accept the less common complications, including the remote risk of death or serious disability that exists with any surgical procedure.

______ I understand that tissue cannot heal without scarring and that how one scars is dependent on individual genetic characteristics. The physician will do his/her best to minimize scarring, but cannot control its ultimate appearance.

______ I am aware that smoking during the pre- and post-operative periods could increase chances of complications.

______ I have informed the doctor of all my known allergies.

______ I have informed the doctor of all medications I am currently taking, including prescriptions, over-the-counter remedies, herbal therapies, and any other.

______ I have been advised whether I should avoid taking any or all of these medications on the days surrounding the procedure.

______ I am aware and accept that no guarantees about the results of the procedure have been made.

______ I have been informed of what to expect post-operatively, including but not limited to: estimated recovery time, anticipated activity level, and the possibility of additional procedures.

______ I understand that any tissue/specimen removed during the surgery may be sent to pathology for evaluation.

______ The doctor has answered all of my questions regarding this procedure.

______ Pre- and post-operative photos and/or videos will be taken of the treatment for record purposes. I understand that these photos and/or videos will be the property of the attending physician.
Plastic surgery is not an exact science. On occasion there are instances when revisional surgery may be required to obtain maximum desired results. There may be additional minor fees associated with a touch-up/revisional surgery. This is reviewed on a case-by-case basis.

I certify that I have read and understand this treatment agreement and that all blanks were filled in prior to my signature.
